Assignment -4

Docker and Kubernetes

Assignment Date	09 november 2022
Student Name	Manikandan A
Student Roll Number	821019104301
Team ID	PNT2022TMID46608

1. Pull an image from docker hub and run it in docker Playground

2. Create a docker file for the job portal application and deploy it in Docker desktop application

```
=> [internal] load build definition from Dockerfile                                          1.0s
=> => transferring dockerfile: 328                                                           0.3s
=> [internal] load .dockerignore                                                             1.1s
=> => transferring context: 28                                                               0.0s
=> [internal] load metadata for docker.io/library/python:3.6                                 9.1s
=> [auth] library/python:pull token for registry-1.docker.io                                 0.0s
=> [internal] load build context                                                             1.8s
=> => transferring context: 6878                                                             0.0s
